ABOUT

First-year ENTC engineering student pursuing B.Tech from MIT AOE Alandi. Passionate about technology, electronics, and programming.

TECHNICAL SKILLS

- C Programming
- Python
- HTML & CSS
- Electronics
- Web Dev
- AI & Chatbots

OTHER SKILLS

- Management & Leadership
- Critical Thinking & Problem Solving
- Stock Market Basics & Technical Analysis
- App & Website Development

Education

MIT Academy of Engineering, Alandi	2025 – 2029
B.Tech — Electronics & Telecommunication Engineering (ENTC)	
Siddharth Junior College	2025
Higher Secondary Certificate (HSC) — Science	
SSC Board	—
Secondary School Certificate (SSC)	

Projects & Experience

Laser Security System

Hardware Project

- Developed a Laser Security System using photodiode detection circuitry.
- Gained hands-on experience with electronics components and circuit design.

Portfolio Website

Web Development

- Designed and deployed a personal Portfolio Website on GitHub Pages.
- Built using HTML, CSS & Python demonstrating front-end development skills.

Multi-Door Safety Interlock System

Embedded Electronics Project

- Developing a safety interlock system for vehicles using logic gates.
- Focuses on vehicular safety logic and hardware-level circuit integration.

Python Object Detector & AI Chatbot

AI / Software Project

- Working on a Python-based object detection model and an AI Chatbot project.

Sensor-Based Water Quality Tester

IoT / Sensor Project

- Working on a sensor-based Water Quality Tester device for real-world monitoring applications.

Paper Trading & Market Analysis

Self-Initiated Learning

- Paper trading — learning chart patterns, candlestick patterns, and market trends.

Certifications & Achievements

IBM	Career Management Essentials Certificate	
Cisco	Python Essentials 1 & 2 Certificates	Mar 2026
Anthropic	Claude 101 & AI Fluency Certificates (x3)	Apr 2026
Angel One	Basics of Trading Certificate	Mar 2026
IEEE MITAOE	Prompt War — Competitive AI Event Participant	Sep 2025
